

# BJC and Associates, LLC

## Company Profile

Manufacturer's Representative to the Automated Test Equipment (ATE) Industry, Specializing in Test, Inspection, and Repair Solutions.

Serving Eastern PA, NY, NJ, DE, MD and VA

BJC and Associates, LLC.

Founded in 2009 by Owner and Sales Consultant, Bernard (Bernie) Corigliano, a test engineering professional with more than thirty years of extensive experience in the electronics industry having worked for Litton ABS, Exxon Office Systems formerly Vydec, Inc., Bell Labs, LSI Avionics, GenRad and Teradyne.

For the first 9 years of my career I worked in the industry as an Electronic Technician, Final Quality Assurance Inspection Supervisor, and as a Senior Test Engineer which has allowed me to gain insight on the test and inspection challenges facing printed circuit board manufacturers.

My real world experience has opened the door for a 12-year career in a pre and post-sales role supporting GenRad's ATE product line. In addition I have spent the last 12-years selling Test and Inspection solutions for GenRad and Teradyne. I have established a reputation as a consultative sales professional, and I'm proud to be representing four of the leaders in today's ATE industry:

- Acculogic, Inc.,
- Machine Vision Products,
- Teradyne - Assembly Test Division,
- VJ Technologies

## Office:

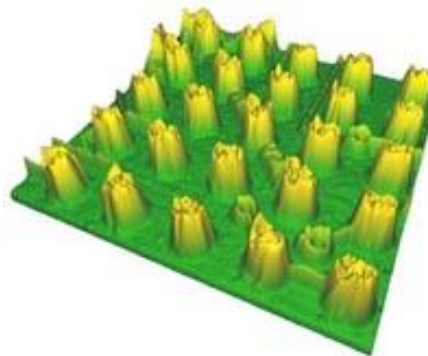

Union, NJ 07083-7443  
Voice: (908) 485-3291  
Mobile: (908) 451-2152
